

## **1. Plan**

- exercises/topics for videos
- Make youtube to upload OhMyQuad videos
- For each exercise
  - Small description of proper form
  - What muscle groups it utilizes
  -

## **2. Film**

- Landscape orientation, 16:9
- Good lighting, minimal background noise
- Keep extra seconds before/after each take for easy editing

## **3. Edit**

- Check for clear footage
- Add on screen text for key points
- Keep a consistent style across all video
- Export at 1080p, consistent aspect ratio

## **5. Publish / add to repo**

- Upload to YouTube, and store the link

## **6. Exercises to Consider**

### **Lower body**

- Squat (back squat, front squat, goblet squat)
- Deadlift (conventional, sumo, Romanian)
- Lunge (walking, reverse, split squat)
- Leg press
- Hip thrust / glute bridge
- Calf raise

### **Upper body – push**

- Bench press (flat, incline, decline)
- Overhead press / shoulder press
- Push-up
- Dip
- Lateral raise
- Chest fly

### **Upper body – pull**

- Pull-up / chin-up
- Lat pulldown
- Bent-over row
- Seated cable row
- Face pull
- Bicep curl

### **Core**

- Plank
- Hanging leg raise
- Cable crunch
- Russian twist
- Ab wheel rollout

### **Full body / compound**

- Clean and press
- Kettlebell swing
- Farmer's carry
- Thruster
